BUYERS' CHECKLIST

FEATURES TO LOOK FOR

GEOFENCE AND GPS-BASED VISIT VERIFICATION

Automatic visit tracking using member-site geofence for verification and client authorization. Requires no training for employees. Strong privacy controls.

Works automatically! Requires NO training.

VISIT RECORDING VIA APP, TEXT OR CALL

Use geotagged text messages or VR phone call to record visits, time, and attendance. Use mobile phone app to record visit location and capture information such as - miles driven, tasks performed, notes-pictures-signatures for proof of service, and custom forms.

Location-tag all field activities!

COLLECT ANY TYPE OF DATA

Collect custom data for State & Federal requirements. Setup complex business logic within your forms to include mandatory fields, form validations, field calculations, auto-fills, links to external data sources etc. Attach pictures, signatures, tasks list to collected data.

Collect any data and automate field operations with exception monitoring!

INTEGRATE WITH EHR, PAYROLL

Create custom reports for State / Federal requirements
Integrate collected field data with your EHR, Payroll, Expense Reporting systems.

Custom reporting and modern APIs for integration!
